

Social Media Policy for Heywood Healthcare

The healthcare industry, like many other industries, has embraced the use of Internet Sites, Social Media and Blogs. Social Media sites and Blogs facilitate communication, education, collaboration with others, research, business travel, remote work, etc. Heywood Healthcare (Heywood) embraces the new opportunities for engagement available for those in our community through the interaction of visitors to our Social Media sites and is dedicated to providing a platform for online information and conversations. For the purposes of this policy, Social Media is defined as an on-line social structure made up of individuals or organizations that are tied by one or more specific types of inter-dependency, such as values, visions, ideas, financial exchange, friendship, business operations, professional exchange, etc. Social Media includes, but is not limited to, sites such as Facebook, Linked-In, MySpace, YouTube, and Twitter. The Internet provides a wide array of resources, services, and interconnectivity to the Heywood Healthcare community.

However, there are risks associated with inappropriate Internet access and use which must be addressed through appropriate safeguards, policies and practices, education and training, and appropriate corrective action when necessary. Monitoring appropriate use of the Internet by employees is a joint responsibility of the organization's leadership, information technology (IT) support staff, and human resources leaders. To enjoy and participate in our Social Media sites, your review and compliance with our Social Media Policy below is required. It is important to review our Social Media Policy on a regular basis since updates may occur at any time and you will be required to comply with our Policy as it is in effect at each usage of our Social Media sites. Heywood Healthcare may discontinue any Social Media site or website without notice at the discretion of the administrative team.

While we may respond to comments on our social media sites, we often do not do so for a variety of reasons. If you have questions, comments or concerns about Heywood Healthcare's social media sites or our Social Media Policy, please contact Community Relations at (978) 630-6248 .
